Silver Award Project

Silver Award Solo Model Proposal

There are guidelines about what constitutes an acceptable Silver Award project. Please review the following information to ensure that your project meets these guidelines.

1. A collection of products for an agency or worthy cause can be a **SMALL PART** of a Silver Award project, but not the focus of the project. Find a way to ensure that your final project will not be just a collection of items. For example, you could hand-make a necessary item as your project focus, then spend a small amount of time collecting other necessary items.
2. A project is not a one-day or one-time event. Projects should be executed over several days.
3. A girl cannot raise money for another organization, program or individual.
4. A girl cannot complete a pre-established project for an organization. For example, a girl cannot create pillow cases to donate to Ryan's Cases for Smiles, which brings pillowcases to children in hospitals. (This is considered volunteering.)
5. The project must be a Take Action project, not a community service project - even if the community service project is very large and takes a lot of time and hard work.

How will your plan make your project sustainable? You may choose more than one method.

- ☐ I will create a permanent solution that can be used after my project is complete.

- ☐ I will advocate to change a rule, regulation or a law and encourage others to join.

Specifically, what will you do to make your project sustainable? Please include a 3-4 sentence description.

Leadership

The Silver Award is a Take Action Leadership Project. When working as a Small ATeam, each girl must have a leadership role. Think about each girl's unique talents, skills, and interests. What is the best leadership role for each girl?

Your leadership role will be a start point to create your individual To-Do List, which is part of the Individual Team Member Details form. On your To-Do List, you'll document your plan to complete your personal 50 hours work on the project.
