

First Aid Training

First aid offerings listed in the chart on pg. 37 of Safety-Wise are provided online by the sponsoring organization and include a face-to-face participant skills assessment. The course may be accepted as meeting the recommendation.

National first aid programs may be submitted for review throughout the year. Girl Scouts of the USA routinely reviews such programs so as to expand the courses available to our membership. Councils may review local offerings, compare the content to the national recommendations, and make decisions concerning their area's resources.

For more information regarding what level of training is needed for different activities, and when it is needed, please consult Safety-Wise (pg. 36).
