An exciting, on-your-feet adventure for kids and their grownups that lets YOU make decisions and be an active participant in the story!

Join us this summer when we transform Theatre Horizon into a school for superheroes. Heroes-in-training will sharpen their super skills while going on an adventure that travels through multiple rooms in the theater. But when the school is menaced by the villainous Polonium Malogrove, the students must put their skills to the test and work together to save the day.
